

Holistic Equine Care

At our Facility or Yours

“IT’S ALL ABOUT THE HORSE...”

At Cedarbrook Veterinary Care we strive to maximize the quality of life for our equine patients by providing quality holistic veterinary health care paying the utmost attention to the individual needs of our equine patients and their guardians through compassionate care and integrity.

Cedarbrook Veterinary Care prioritizes in whole animal well-being - not just their physical health but also how our patients experience their vet care. Our doctors take the time to ensure that a horse or companion animal (for bodywork) is not in a fearful state. This allows us to provide care by also treating for prevention and capability, not just crisis.

Our practice thrives on a holistic combination of possible modalities rather than just considering alternative vs. traditional medicines. Our ‘holistic’ practice fully encompasses the word – it is inclusive and provides for the complete high quality care for all aspects of the whole patient—mind, body, herd, nutrition, fitness, etc. The balancing of these energies for fitness/bodywork avails our vets to a higher understanding for veterinary services, bio-mechanics, physical therapy and the like. This experience and intention strengthens our veterinarian’s perception and evaluation abilities to discern both the physical and energy potential of our patients.

SERVICES AVAILABLE

ADVANCED EQUINE DENTISTRY

Horses can suffer from many dental disorders that can affect performance and general well-being. Regular examinations and maintenance on their teeth is especially necessary for today's horses. Maintaining your horse's proper dental care has its rewards with a longer more comfortable future.

EQUINE CHIROPRACTIC AND ACUPUNCTURE

Sometimes, traditional scientific methods are not the only way to treat an ailing animal. When that's the case with your animal, we can provide alternative methods of healing, including acupuncture, chiropractic and energy work.

REHABILITATIVE CARE

Our dynamic team of veterinarians specializes in equine sports medicine and lameness rehabilitation as well as bodywork, physical therapy, herbs, homeopathy and nutrition. They work together to provide the best rehabilitative care packages for your horse.

COMPANION ANIMAL SERVICES

We are happy to offer on-site chiropractic and acupuncture modalities for companion animals. These additional services provide for injury rehabilitation, pain relief/management and a host of other health support functions.
